GENERAL INDEX

A

Abscess, treatment of dental, 383
Abscesses, electric test for, 39
Adenoma of the velum of the palate, 165
Age incidence in dental caries, 25
Alterations which follow orthodontic procedures, 568
Alveolar abscess, etiology, 384
  fistulas of the antrum of Highmore, treatment of, 336
  infections of dental origin as seen by the roentgenologist, 223
  pyorrhea, etiology, symptoms and treatment, 225
American Society of Dental Radiographers, 573
American Year Book of Anesthesia and Analgesia, 1917-1918, 344
Anchorage in Jackson removable appliances, 178
Anchoring appliances, 204
Anesthesia in dental surgery, 619
Ankylosis, false, due to deciduous tooth in sinus, 682
  of the jaw, 49
  of the mandible and its operative treatment, 107
Arch, lingual, suggestions regarding use of, 419
  lock, lingual, 488
Arthroplasty of the jaw, 622
Atresia of the palate, 616

B

Band materials, 523, 573
Benign septicemia from filling the root of a molar tooth, 567
Biologic laws, practical application of, 365
Biology, laws of, regarded as factors in malocclusion, 212
Blueprint charts as an aid in teaching of orthodontic technic, 315
Bone-graft of lower jaw, remote results of, 46, 165
Bowman, Geo. Alexander, obituary, 295
Buccal gangrene following an extraction, 693
  hemorrhage, a peculiar case of, 106
  spirochetoses, 398
Bucco-dental foci of infection and their relations with the organism, 512
  sepsis and general diseases, 399
    and periapical foci, influence on the general health, 618

C

Canalicular system of dentin, 168
Caries and pregnancy, 459
  dental, 19, 693
  of upper incisors, 47
Cellulitis of and abscess in the parapharyngeal tissues causing largyngeal edema, 226
Central incisor, upper, labial aspect of, 66
    upper, mesial aspect of, 63
    upper, occlusal aspect of, 68
Chisel and mallet, use of, in extraction of teeth, 145
Chlorosis and dentistry, relation between, 108
Cholesteatomas of the jaws, 457
Class II, postoperative treatment of, 591
Cleft palate and harelip procedures, 319
    extraordinary, 288
    treatment of complicated, 282
Clinical value of the electric test for pulp vitality, 36
Complex neutroclusion, treatment of a case, 362
Compound comminuted fracture of the inferior maxilla, 104
Conduction anesthesia of the inferior dental nerve, 102
Congenital lateral labial cleft, 105
Considerations from an orthodontic standpoint, 297
Cuspids, impacted, technic for handling, 378

D

Deciduous teeth, impacted, 253
    position of, important diagnostic symptom, 237
    treatment of, 458
  tooth in sinus, false ankylosis due to, 682
Defective teeth among school children, 54
Defects of childhood, common preventable, 452
Delayed extraction of deciduous teeth, case report, 371
Dental abscess, treatment of, 383
  affections and radiography, 542
  anomalies, 512
  caries, 19, 693
    and nutritional therapy, 623
    association of, with general affections, 401
  clinic for South Australia, 399
  configuration, origin of, 161
  cysts and maxillary tumors, 227
  education, 633
    of medical students, 617
    who should control, 463
  foci, an etiologic factor in systemic disease, 394
  hygiene in schools, 289
  hygienist, 113
  nomenclature, 629
  pliers, patent, 548
  practice, orthodontia in its relation to, 5

Dental—Cont'd.
practitioner, some things he should know about orthodontia to best serve his patient, 356
profession, movement to lower standard of, by admitting laboratory men, 230
radiography, 218
in cases of systemic disorders, 93
practical significance of, 287
standardization of, 152
roentgenography, neglected phases of, 611
stereoroentgenography, 331
surgery and organic heart disease, 163
therapeutics based on clinical and roentgen-ray investigations, observations on, 395
tissue, structure and development of, 44
x-ray film holder, 614
Welfare Foundation, 575
Dentistry, some of the present tendencies of, 618
Dentition, difficulties and complication of, and their management, 689
in old age, 51
Diagnosis and pathology of distoclusion, 639
Diet in relation to oral hygiene, 620
Direct band technic, and instrument employed, 251
methods of making molar bands, 523
Diseased pulps of teeth in relation to sequelae, 402
Diseases of the dental pulp, 28
of the hard tooth substance, 677
of the jaw, in roentgenography, 680
of the pulp and their sequela, 678
Distoclusion case, temporomandibular articulation in the, 579
definition of, 641
differential diagnosis, 666
facial modifications in, 653
frequency, 644
pathology and diagnosis of, 639
Duty of orthodontist to dentist, 348

E

Education in orthodontia, present status of, 688
Electric test as check on x-ray findings, 38
for pulp vitality as an aid in dental diagnosis, 274
for pulp vitality, clinical value of, 36
Endocrine derangement of the teeth, effect of, 451
insufficiency, lack of facio-cranial development from, 100
Environment as factor in etiology of malocclusion, 215
Epidermic inlay, technical phases in the successful control of, 599
Epilepsy from undescended teeth, 110
Epithelioma of the buccal mucosa, 101
of the lip, results of surgical treatment of, 624
Epulis, 270
involving lower centrals and lower left lateral incisor teeth, 272
Eruption, irregular, of teeth, 675
Ethical relations in conducting an orthodontic practice, 347
Etiologic influences of deciduous and erupting permanent teeth with principles of treatment, 131
Etiology—fifth dimension, 77
of open bite, 159
Exodontia, stereoroentgenograms in, 334
Expansion of the arch, 187
wire, lingual, 373
Extensive loss of substance of mandible due to removal of sarcoma; replaced by bone graft from crest of ilium, 483
Extraction of teeth, 10
use of chisel and mallet in, 145
x-ray as aid in determination of, 93
vs. expansion, 516

F

Face, plastic surgery of the, 81
Facial configuration, 74
modifications in distoclusion, 653
Febrile conditions and eruption of the teeth, causative relation between, 167
Focal dental infection, remote manifestations of, 393
infection and tissue specificities, 52
in the head and its relation to systemic disease, 393
of oral origin, 31
Foreign bodies, removal of, from maxillofacial areas, 284
Function, lack of, as cause of malocclusion 519
Functional disturbances in distoclusion, 647
Fractures into cavities, 568

G

Gangrene of roof of mouth during influenza, 162
Gas-oxygen anesthesia in relation to major dental surgery, 339
Giant-cell sarcomata of the jaws, 396

H

Harelip, 105
and cleft palate procedures, 319
and palatine fissure, some cases of, 287
Heredity and variation ethnologically considered, 306
as factor in etiology of malocclusion, 213
influence of, upon dentures, 134
principles of, in relation to treatment, 367
Histology and pathogenesis of pyorrhea alveolaris, 616
of dental caries, 453
History of orthodontia, 263, 534
Home prophylaxis for the prevention of pyorrhea and decay, 166

Hypersensitive dentine, 459
Hypersensitive dentin, pathology and treatment of, 50
Hypertrophy of gums and alveolar process, 311

I

Impacted and unerupted cuspids and third molars, 432
cuspids, technic of handling, 378
deciduous teeth, 253
lower third molar, 457
Infection of dental origin, treatment of, with subcutaneous injections of electric colloidal silver, 222
Infectious conditions involving the region of the third molar, recognition and treatment of, 460
Innervation of the soft palate, 103
Intermaxillary wiring, 44
Interstitial gingivitis or so-called pyorrhea alveolaris, and incipient form of scurvy, 397

J

Jackson removable appliances, principles of the, 175
technic for making, 191
Jaw injuries, modern prosthetic treatment of, 228

L

Labial aspect of upper central incisors, 66
teeth, maleruption of, 133
Laws of biology regarded as etiologic factors in malocclusion, 212
Leverage problem of the mandible, 446
Lincoln Life Sketches, 465
Lingual arch, improved method for locking, 428
lock, 488
repairing, without removing molar anchor bands, 596
suggestions regarding use of, 419
arches, fixed and removable, 494
expansion wire, 373
lock for use with removable lingual arches, 1
Lip biting as cause of malocclusion, 14
Lip-sucking complicated by rickets, 504
Local anesthesia in dental, oral, nose, and throat surgery, 691
in everyday conservative practice, 449
of the mouth and teeth, 514
Localization of foreign bodies by stereoroentgenography, 333
Locking lingual arch, improved method for, 428
Lymphatic varicosities of the buccal cavity, 627

M

Maleruption of labial teeth, 133
and lack of function as important causes of malocclusion, 519
as cause of orthodontia, 12
Malocclusion corrected by the ribbon arch, 282
environment as factor in, 215
laws of biology regarded as factors in, 212
malnutrition and lack of function as important causes of, 519
Mandible, changes in the, 199
Maxillary periostitis with fatal outcome, 226
sinusitis of traumatic origin, 282
Mechanics in orthodontia, from a modern aspect, 97
Medical practice, orthodontia in its relation to, 5
Mendel's jaw, 308
Mercurial stomatitis, 398
Mesial aspect of upper central incisor, 63
Metals for appliances, 176
Mikulicz's disease, 164
Model trimming, simplifying, 301
Molar bands, direct methods of making, 523
Monkey-face, 320
Mother's milk and better teeth, 336
Mouth and jaw conditions responsible for defects in speech, 622

N

Nasal and dental affections, relations between, 628
Negro skulls, 312
Nomenclature, dental, 629
Normal development of teeth, 530
occlusion, 8

O

Oblique rays, use of, in dental radiography, 218
Obliteration of lower labial sulcus, 600
Occlusal aspect of the upper central incisor, 68
Occlusion of teeth in relation to the temporomandibular articulation, 431, 462
Ocular hygiene with special reference to the dental profession, 621
Odontalgia, causes of obscure, 28
Odontology, advance in, 106
Old age, dentition in, 51
Open bite, etiology of, 159
Operation for removal of tonsils, 34
Oral hygiene during childhood, importance of, 515
pathology, recent advances in, 19
roentgenography, 670
differentiation of normal from pathologic conditions, 671
sepsis, 26
and its radiographic diagnosis, 340
Orbital phlegmon following dental extraction, 45
Orthodontia an exact science, 187
and its relation to modern tendencies of dental and medical practice, 5
appliance, patent, 550, 555, 560
defined, 298

Orthodontia—Cont'd.
history of, 263, 534
preventive, 529
some things a general practitioner should know about, 356
stereoroentgenography in, 333
the ribbon-arch mechanism and some new auxiliary instruments, 97
unusual cases in, 117
Orthodontic Directory of America, 517
education, 447
implement, patented, 686
limitations, 160
patents, 570
practice, ethical relations in conducting an, 347
specialists, are they derelict in their duty toward the dental profession, 171
standpoint, considerations from the, 297
teaching with practical results, 490
technic, blueprint charts as an aid in teaching of, 315
treatment of temporary arches, 473
Orthodontics, 448
modern in general practice, 335
study in dimensions, 70
Orthodontist, relation of physician to, 412
Orthodontist's duty to dentist, 348
duty to patient, 349
Osteitis of the lower jaw in the course of eruption of wisdom teeth, 100
Osteoclasia, electric test for, 39

P

Pacific Coast Society of Orthodontists, President's address before, 467
Pain following extraction and oral surgical operations, causes and treatment of prolonged, 456
Painless extraction, 566
Paradental cyst of the mandible in a child, 339
Patents, 548
Pathology and treatment of the diseases of the peridental membrane, 166
of distoclusion, 639
oral, recent advances in, 19
Peridental and periapical surgery, 460
Peridental membrane, diseases of the marginal part of the, 679
Peripheral lingual paralysis following gunshot injury, 337
Permanent tooth, primary lines of force of the, 59
Piltdown skull, 309
Pharyngeal tube for anesthesia in oral and head surgery, 619
Physician, relation of, to orthodontist, 412
Physiognomies, childhood and adult, comparison of, 136
Plastic surgery of the face, 81
Poisoning, fatal, of a dentist, with arsenic from filling of a tooth, 692
Position of deciduous teeth, an important diagnostic symptom, 237
Posterior mandibular occlusion, some thoughts relative to treatment of, 290
Postinfluenzal necrosis of the palatine roof, 226
Postoperative treatment of Class II, 591
Practical application of biologic laws, 365
Pre-dental year in dental education, 403
Prenatal care of teeth, 412
President's address before the Alumni Society of the Dewey School of Orthodontia, 407
before the Pacific Coast Society of Orthodontists, 467
Predetermined arch, 476
Preventive orthodontia, 529
Primary lines of force of the permanent tooth, 59
tuberculosis of the buccal mucosa, 103
Principles of the Jackson removable appliances, 175
Protrusions, local causes of, 136
Pulp vitality, clinical value of electric test for, 36
electric test for, as an aid in dental diagnosis, 274
Pulpless and vital teeth, 693
teeth, shall they be retained in the mouth, 511
Pulps from infected teeth, microscopic study of, 401
Pyorrhea alveolaris, 26, 48
patient's side of, 621

Q

Quarter plate, uses of, in dental radiography, 220

R

Radiodontist, some observations of the, 91
Radiography and dental affections, 542
dental, standardization of, 152
in the examination of suppuration and dental fistulae, 438
place of, in dental practice, 341
Radium injuries in the mouth, 450
Record book, 188
Regulating the practice, 424
Relation of general practitioner to the specialist in dentistry, 138
Relationship between ocular and dental disease, 449
Removable lingual arch, 446
arches, adjustable lingual lock for use with, 1
regulating appliances, 203
Respiratory function and occlusion, 111
Rickets, lip-sucking complicated by, 504
Rigg's disease, predisposing factors of, 621, 628
Roentgen ray in diagnosis of sinus disease, 285
therapy in dentistry, 342
Roentgenogram as an index of irritation of infection of dental origin, 624
Roentgenographic findings in toothless mouths, 691
Roentgenography, dental, neglected phases, 611
for localization of foreign bodies, 680
oral, 670

Roentgenography—Cont'd.
sinuses in, 680
Root canal sterilization, 620

S

Saliva in diabetes, 108
Salivary calculus in an acromegalic, 626
Sarcoma, loss of substance of mandible due to removal of, 483
School children, defective teeth among, 54
Sepsis, clinical aspects of, 386
Simplifying model trimming, 301
Soldering Jackson removable appliances, 185
Specialties in the dental profession, 169
Specialist, relation of general practitioner to, 138
Skiagrams in dentistry, value of, 286
Skin grafting, free, in the mouth, 163
St. Louis University Centennial Endowment fund, 55
Standardization of dental radiography, 152
Stent inlay, 600
Stereoroentgenography, dental, 331
in dental radiology, 513
Sterilization in dentistry, methods of, 451
Stomatology in Portugal, 229
Structural lesions in distoclusion, 650
Sublingual cysts, treatment of, 109
Sublingual ranula, 338
Submaxillary adenites of dental origin, 162
Suppuration and dental fistulae, radiography in the examination of, 438
Surgical and prosthetic treatment of constriction of the jaws, 454
prosthesis in the operative treatment of tumors and necrosis of the lower jaw, 453
treatment of prognathism, 566
of pyorrhea, 569
Surgery, plastic, of the face, 81
Sustaining bar in Jackson removable appliances, 193

T

Teeth and systemic disease, 448
must have exercise, 161
Teeth—Cont'd.
presence of, at birth, 335
Temporary teeth, disorders due to their neglect, 52
arches, orthodontic treatment of, 473
Temporomandibular articulation of the distoclusion case, 579
occlusion of teeth in relation to, 431, 462
Third molar impaction, vomiting as result of, 95
molars, impacted and unerupted, 432
Thumb-sucking, 134
Tonsils as etiologic factor in oral focal infection, 33
indications for removal of, 34
Toothache, crises in, following absorption of bismuth subnitrate taken for ulcer of the stomach, 692
Tooth in maxillary antrum, 51
infection, 692
movement, study in management of, without appliances, 684
Treatise on artificial crown-bridge-and-porcelain work, 112

U

Ulceromembranous stomatitis, etiology and treatment of, 108, 514
Undernourishment and its effects on the teeth, 225
Unusual cases in orthodontia, 117

V

Variation and heredity ethnologically considered, 306
Vomiting as result of third molar impaction, 95

W

Wisdom teeth and their removal, 455
tooth accident in a man aged 77 years, 461
complicated eruption of, 160

X

X-ray useful in diagnosis of oral focal infection, 32
X-rays, side effect of, 164

EDITORIALS

Announcements for the journal, 233
A movement to lower the standards of the dental profession by admitting laboratory men, 231
A practical treatise on artificial crown, bridge, and porcelain work, 112
A reply to "Who should control dental education," 632
Are the specialists in orthodontia derelict in their duty toward the dental profession? 171
